Agricultural Progress

1975 Crop Report

County of Yuba
Dr. L.T. Wallace, Director  
California Department of Food and Agriculture  

and  

The Honorable Board of Supervisors  
County of Yuba  

Gentlemen:

I am pleased to submit this 1975 Crop Report for Yuba County as required by Section 2279 of the California Food and Agriculture Code.

Gross values of agricultural production in Yuba County slipped below the all-time high that was reached in 1974. The 1975 production was $52,918,300, as compared with the production for 1974, which was $53,862,500, a drop of $944,200.

This decrease for 1975 was primarily due to lower prices received for rice and peaches with the latter also experiencing a decrease in production. The decrease for 1975 would have been greater except for an increase in rice acreage amounting to 6,885 acres.

Crop values in this report are gross receipts to growers and should not be confused with net income, as production costs remained near the high reached in 1974.

My sincere appreciation is expressed to the many individuals, firms and State agencies that contributed invaluable information necessary in the compiling of this report.

Credit for compilation of this report goes to my staff under the direction of D.B. (Bernie) Engle, Deputy Agricultural Commissioner.

Respectfully submitted,

[Signature]
