TRAFFIC CONTROL PLAN
CHECK LIST

All traffic control plans shall meet the current applicable provisions of the California Manual on Uniform Traffic Control Devices. All plans submitted for review and comment, shall also contain the following information:

1.__ Pay all applicable fees.
2.__ Provide three copies of the proposed Traffic Control Plan(s).
3.__ Indicate the proposed date of the work, and the beginning and ending times of work for each day.
4.__ If this plan is for more than one day, indicate the total duration of the proposed work.
5.__ Indicate a North arrow and all applicable street name or names on the plan.
6.__ Indicate each of the applicable signs, using the current standard codes (W20-1, G20-2, etc.).
   a.__ Road Work Ahead, Road Construction Ahead, End Road Work, End Construction, and / or other applicable signs. The signs shall be properly installed on 4x4 posts and shall remain in place for the duration.
7.__ Indicate the proposed location and spacing of each of the Advanced Warning signs, and how they relate to the existing posted speed, amount and type of daily traffic, and sight conditions for the roadway.
   * Do not use general tables, or notes, which may cover many different applicable conditions.
8.__ Indicate the on center spacing of the delineators for each of the taper and construction areas.
9.__ Indicate the type and locations of barricades to be used.
10.__ Indicate the location of each flagger. Flaggers shall be properly equipped and trained in traffic control practices.
11.__ Indicate the length of the taper to and from the work area.
12.__ Indicate the length and width of the workspace. (The open through lane shall remain at a minimum of 10 feet in width.)
13.__ Emergency Response Agencies shall be provided with safe access through the work zone at all times.
14.__ Note: ALL TRENCH COVER PLATES SHALL HAVE A NON-SKID SURFACE.
15.__ All traffic control signs, devices, and equipment shall be maintained for the duration of the work.
16.__ All applicable permits and the Traffic Control Plan shall be available for review by the County of Yuba observer on site during all work.
17.__ Notify the County of Yuba Public Works Department a minimum of two working days prior to implementation of the accepted Traffic Control Plan. (530-749-5656)
18.__ Schedule a Pre-Construction meeting with all applicable agencies prior to the commencement of any work.
19.__ Within the County of Yuba there are several areas identified as environmentally sensitive, therefore it is the sole responsibility of the Developer / Builder / Contractor to identify and obtain all necessary permits to proceed with any and all construction activities.

The accepted plans shall be valid only for the specific work, work area, time and duration. The contractor is required to maintain the construction project, in compliance with the County of Yuba Department of Public Works Improvement Standards (available on the County web site), and local, State, and Federal Public Safety Programs. Use of current applicable Construction Best Management and Work Practices shall be required.
